Technology to Policy mCHP “Status” Workshop

The Sheraton Philadelphia Society Hill
June 15 & 16, 2017
Hosted by Energy Solutions Center

About the mCHP Status Workshop

The micro-Combined Heat & Power (mCHP) Workshop will provide attendees with an examination of the state-of-the-art mCHP products making their way to the marketplace. The status of technology development, installation experience, operation and performance characteristics, costs, and most appropriate markets for mCHP will be presented. The Workshop is hosted by the CHP Consortium of Energy Solutions Center and will be held in conjunction with ESC's Technology and Market Assessment Forum. All attendees will receive 12 Professional Development Hours (PDHs).

Who should attend?

- **Utility Commercial and Key Account Reps**
- **Business Development Managers**
- **Utility Technology R&D Professionals**
- **Gas Equipment Manufacturers**

TECHNOLOGY TO POLICY: mCHP "Status" Workshop

Philadelphia | June 15 & 16

About the Energy Solutions Center

The Energy Solutions Center, Inc. (ESC) is a non-profit organization of energy utilities and equipment manufacturers that promotes energy efficient natural gas solutions and systems for use by residential, commercial, and industrial energy users. The Center creates educational and marketing materials, case studies, training manuals, decision analysis software, and other tools and resources designed to enhance the success of those utility customer service professionals responsible for enhancing customer productivity, efficiency, reliability and comfort.

About the CHP Consortium

The Combined Heat & Power (CHP) Consortium of the Energy Solutions Center accelerates the adoption of CHP technologies by reducing the technical, institutional, and financial impediments to market acceptance.
